Features

Hexmac™ 750 is a high loaded hexazinone soluble granule formulation that gives long term weed control in Pinus radiata plantations and industrial situations.

Hexmac™ 750 can be applied pre plant or post plant in Pinus Radiata plantations. Please read the label for directions.

Hexmac™ 750 can also be used in industrial situations where bare ground is desirable such as infrastructure sites, rail track etc.

| Features | Benefits |
|--------------------------|--|
| High loading formulation | Less volume vs liquid formulations |
| Convenient packaging | No plastic drums compared to liquid formulations. Hexmac™ 750 comes in an easy to handle 10 kg carton. |
| Flexibility in use | Hexmac™ 750 can be applied by aerial, ground or spot gun application. |

DISCLAIMER: We make every reasonable attempt to ensure the accuracy of all statements made in this brochure. However, it is impossible to know the impact our products or the advice herein may have in your situation without first speaking with you in detail. The only way we can ensure that you receive the correct products and advice and the only way you can protect against unsuccessful and/or unwanted results is to speak to us in detail concerning your circumstances and requirements and follow the recommendations / instructions which appear on all product labels. We must therefore disclaim any responsibility for all statements and advice contained herein as well as any actions you may take having read this brochure. Accordingly, we strongly recommend that you closely follow all label directions and speak with us before using any of our products or relying upon any of the advice herein.
